

New for 2004

Upgrade Your Eidolon® Hand Held Slit Lamp Model 510L to the New Model 510LS (Loupe System)

If you own the Eidolon Hand Held Slit Lamp Model 510L, you know how valuable an instrument it is to your practice. Now you can upgrade your classic Model 510L to enjoy all the benefits of the powerful new Model 510LS (Loupe System).

Features

- 1 20D, 40D, and 60D quick-change loupes provide 5x, 10x, and 15x magnification
- 1 Loupes are color-coded for ease of use
- 1 Precisely designed optics produce outstanding image quality
- 1 Wide field of view
- 1 Long working distance
- 1 Exceptional performance
- 1 Highest quality engineering and components
- 1 Adds no weight to original ultraportable Model 510L
- 1 Creates an upgradeable platform for future Eidolon products and accessories

In minutes, you can convert your original Model 510L to the new Model 510LS to produce the best view of the anterior chamber you've ever seen. Our easy-to-install upgrade kit includes quick-change, distinctively color-coded loupes that snap in and out of our specially designed housing, enabling you to increase magnification from 5x to 15x in seconds. The kit contains 20D (5x) and 40D (10x) loupes, as well as an eyecup. A 60D (15x) loupe is available as an option.

With this simple conversion, you also create a springboard for seamlessly attaching new ophthalmic products and enhancements to the Eidolon Hand Held Slit Lamp.

Model 510LS Upgrade Kit: \$250.00
(includes 20-D (5x) and 40-D (10x) Loupes)

Optional 60-D (15x) Loupe: \$275.00
